Hey David,

Through lots of coordination with Gina, here's my justification for the IMT Exercise/GKM Hotwash. Let me know what changes you might have. I'll be around in the morning if you have any changes that I need to make.

Thanks all!

Luke

I removed the word defend. The argument about notification procedures makes our discussion imperative. I will present tomorrow at our GKM meeting.

Hi David,

Per our chat yesterday, I'm sending along a write up regarding GKM discussions at the RRT meeting. I don't know if this will be helpful or whether I've said anything inappropriate. Obviously I've tried to plead our case but I recognize it may not matter. I do think, if this is denied, we should strongly consider cancelling the meeting (which should happen sooner rather than later and we should probably chat with USCG too). And, again, if you think it's not worth moving this forward, I understand OR if you want to make changes, obviously, please do. Thanks for considering this!! ☺

Also, many thanks to Luke for his review of this. I know he's working on his write up now and that it will have similar structure and "feel." Luke – please see my tweaks to your paragraph...you can copy these or not, of course.

Thanks, G

Gina Cristiano
